Sharratt<info@cban.ca><p>Coordinator: Lucy Sharrattcoordinator@cban.ca6132412267ext.6</p><p>Lucy Sharratt has extensive experience as a researcher and campaigner with organizations concerned about genetic engineering and global justice issues. She worked as Coordinator for the International Ban Terminator Campaign in 2005/6 (the international moratorium on Terminator at the United Nations was upheld and strengthened in this phase of the campaign).</p><p>Lucy was the Coordinator of the Safe Food/Sustainable Agriculture Campaign at the Sierra Club of Canada and worked as a researcher for the Bio Justice Project of the Polaris Institute in Ottawa. Lucy also worked as Project Manager for *Voices from the South*, a project of the Working Group on Canadian Science and Technology Policy, which focused on issues raised by genetic engineering in the Global South.</p><p>Lucy worked at the local level as a volunteer with Food Action Ottawa on many issues including the successful campaign against Bovine Growth Hormone. Before moving to Ottawa from St. John's Newfoundland, Lucy led youth education and action initiatives on global justice issues.</p><p>Lucy has a Masters Degree from the Institute of Political Economy at Carleton University where she wrote her thesis on the regulation of genetically engineered foods and crops in Canada. She is the author of Noto Bovine Growth Hormone: A Story of Resistance from Canada in *Redesigning Life? The Worldwide Challenge to Genetic Engineering*, edited by Brian Tokar (London: Zed Books, 2001) and co-author with Dr. Peter Andree of "Unsatisfactory Democracy: Conflict Over Monsanto's Genetically Engineered Wheat" in *Environmental Conflict and Democracy in Canada* edited by Laurie E. Adkin (UBC Press, 2009).</p><p>In 2006 Lucy was nominated for "Best Peoples Defense" in the Captain Hook Awards in the subcategory of "On a Shoestring".</p>
