1. FSC POLICY FOR ASSOCIATION

Introduction

1. Do you have any comments on Introduction?

Objective and Scope

The draft includes a proposal for how far into the past the Policy for Association applies. The current version of the policy does not include information about the timeframe.

The policy covers all ongoing unacceptable activities. For unacceptable activities that have stopped occurring, criteria for case-by-case assessment is proposed. This allows FSC to focus on factors such as the scale of the damage, or whether the issue is still current, rather than limiting the applicability of the policy by a strict cutoff date. This draft version proposes a criterion linked to ongoing harm rather than to dispute.
